LNC SOFTWARE SOLUTION

Unlock the Power of
Volumetric Master Data
for Logistics Success

LNC VOLUMIO System Suite

LNC VOLUMIO System Suite is the ultimate solution that combines the power of a mobile application and a web portal to seamlessly streamline volumetric article master data management.

With LNC Volumio Suite, you can experience cutting-edge logistics software that empowers you to optimize your warehouse operations like never before.

With the software's intuitive interface, you can **easily capture and manage article master data** such as dimensions, weight, and pictures quickly and reliably. LNC Volumio runs on all android devices and internet browsers and can connect to any measuring device and storage system (local, cloud).

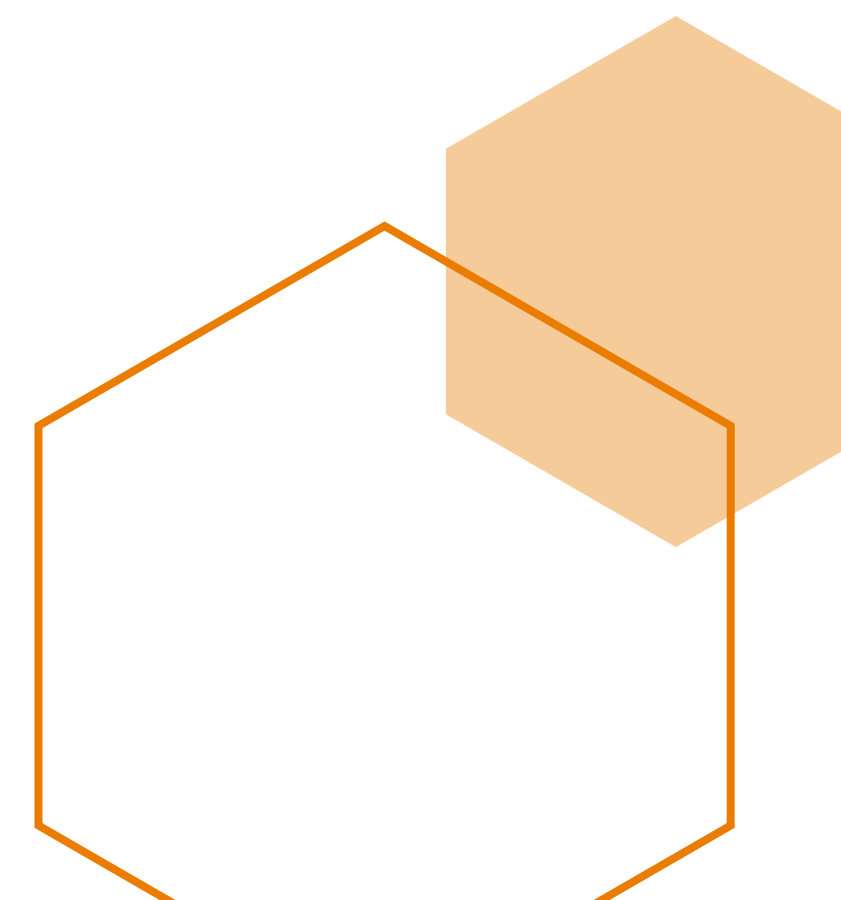

User-friendly, fast & efficient

Looking to revolutionize your logistics and warehouse management with the latest cutting-edge technology?

Look no further. **LNC VOLUMIO System Suite** is an all-in-one solution that delivers powerful results. Our advanced software can be set up in no time, so you can immediately start to effortlessly capture volumetric article master data.

With this data at your fingertips, you can effectively manage and optimize your logistics and warehouse operations, giving you a competitive edge in the market. Discover the power of LNC VOLUMIO System Suite and take your logistics management to the next level with our state-of-the-art digital technology.

LNC VOLUMIO Features

- **Intuitive, fast and user-friendly volumetric article master data capturing and manipulation** (dimensions, weight, images)
- **Seamless and wireless connectivity to various volume- and weight-measuring devices**, including scales, meters and callipers
- **Simple and guided drag-and-drop data imports and exports** to save time and reduce errors
- **Automatic or manual data import and export** using various methods such as USB, local S/FTP and the Volumio Portal (cloud)

- **Standalone or connected mode** for flexible use
- **A range of customizable settings options** for import and export files, package hierarchy, image tagging, customizable fields, retention policy, device control and more
- **Image capturing with tagging and automatic uploads** for accurate data management
- **Automatic or manual updates** to ensure the software is always up-to-date with the latest features and security enhancements
- **Workload planning with a status overview** for better management and control of workflow processes
- **Powerful user management** for different roles and access levels to ensure control and security

LNC VOLUMIO Benefits

- **Save time and reduce errors in capturing and managing volumetric article master data** (dimensions, weight, images)
- **Improve work efficiency and user satisfaction** with an intuitive and user-friendly interface
- Achieve accurate article volumetric data capturing with **seamless connectivity to various measuring devices**
